## Overview

This course is designed for construction site managers working in the construction sector who are progressing into managing larger and more complex construction projects.

## What you'll learn

The Programme is delivered over two years with the four units of the Certificate in Site Management making up the first year of the programme. The full level 4 Diploma is gained following subsequent completion of a further eight modules in the second year.

- Project Control & Monitoring
- Developing & Managing People
- Managing Sustainable Construction
- Contractual & Legal Responsibilities
- Estimating & Measuring Work
- Managing Sub-Contractors
- Managing Building Services
- Managing Technology of Modern Construction

## Assessments / Exams

You will be continuously assessed throughout your studies. This includes written assignments, report writing and presentations.

## Entry requirements

You must have successfully completed the CIOB Certificate in Site Management Level 4.

## What this course leads to

Successfully complete this course and look into studying on the Level 6 CIOB Chartered Membership Programme.
