Contact us to discuss what Financial support is available.

Overview

Broaden your prospects for Higher-Education study and a successful career with this nationally recognised HNC programme.

What you'll learn

Course units include:

- Engineering Design
- Engineering Maths
- Engineering Science
- Managing a Professional Project

Assessments / Exams

Assessment is via written essays, calculations and practical tests.

Entry requirements

For entry to this course you'll need one of:

- A BTEC Level 3 Extended qualification (with **Merit/Distinction** in Unit 4-Maths and unit 5-Mechanical principles and/or unit 6-Electrical/electronic and a minimum **MM on the National** overall grade and **MMM** in the Extended Diploma)
- 3 A Levels at grade C or above, to include Maths and at least one Science subject
- Study units on an HNC or equivalent international programme

If you haven't got English & Maths A Levels, you'll need to demonstrate Level 2 standard in an initial assessment.

What this course leads to

Finish this course and you'll be able to choose from a range of Level 5 engineering qualifications at HND and degree-level.

You could alternatively head into employment or do an advanced apprenticeship.
