

Level 3

# Gas

Short course

## How much does this course cost?

ADULT 19+

**£1,074**

The above fees include tuition and exam fees.  
Contact us to discuss what Financial support is available.

## Overview

This course prepares you for the Gas Safe qualification.

It's suited to experienced plumbers and those who have completed a plumbing qualification at Level 2.

## What you'll learn

You'll cover:

- Health & safety in gas utilisation
- Scientific principles used in gas utilisation
- The combustion and properties of gas
- Gas in buildings, services and structures
- Gas safety in accordance with legislation and regulations
- Industry standards and working practices

## Assessments / Exams

There are paper-based theory tests throughout the course.

You'll also need to build a practical tasks portfolio.

## Entry requirements

You'll need to have successfully completed a Plumbing qualification at Level 2 - or have a minimum of 5 years trade-related experience.

## What this course leads to

On successful completion of this course you can apply to the ACS (Approved Certification Scheme) for assessment. Passing will give you a licence to operate as a Gas Services Engineer.

The ACS assessment is in Core Domestic Natural Gas Safety and relevant appliances.
