ADULT 19+

**£1,250**

The above fees include tuition and exam fees.  
Contact us to discuss what Financial support is available.

## Overview

Keen on working in a construction-related area as a surveyor, manager or architect?

Then it makes sense to get a recognised construction-industry qualification.

The subsidiary and extended years of this course feature a number of mandatory units, and a range of optional ones so you can select your specialisms.

## What you'll learn

Units on the course include:

- Health & Safety
- Sustainable Construction
- Mathematics
- Science & Materials in Construction
- Construction Technology

- Construction Technology & Design in Construction

## Assessments / Exams

Assessment is via coursework covering both your theory and practical knowledge.

There are also formal exams.

## A typical week

There's a requirement for 45 days of work experience via an industry placement to get your qualification.

## Entry requirements

You'll need GCSEs at level 4 (C) or above to study on this course.

## What this course leads to

The subsidiary year leads on to the BTEC Level 3 (Extended) Diploma in Construction and the Built Environment, which can also be studied full-time or part-time.

After successfully completing the extended year you could enter employment or choose to study at HNC or degree level.
