Overview

This course will give you a high-level understanding of the design, function, construction and statutory requirements for buildings of all classes.

It's hands-on too, and highly regarded by employers.

What you'll learn

Units on the course are:

- Construction Information (Drawing, Detailing, Specification)
- Construction Technology
- Construction Practice & Management
- Science & Materials

You'll also complete an individual project.

Assessments / Exams

Assessment is via coursework covering both your theory and practical knowledge.

There aren't any formal exams for this course.

A typical week

Complete this course and you'll be eligible to apply to the Royal Institution of Chartered Surveyors Associate qualification!

Entry requirements

You'll need to have completed Construction and the Built Environment at Level 3 to study this course

What this course leads to

Once you've successfully completed this course you'll be ready to move on to a Higher National Diploma (HND) and continue your studies.
