City & Guilds Advanced Technical Certificate in Hairdressing Level 3 at the Technical Skills Academy

Want to become a hairdresser? and learn how to cut, colour & style hair? Our hairdressing qualification will turn you into a salon hair professional.

What will I learn?

This course is offered in our industry-standard working salon at The Technical Skills Academy.

The salon will be open to the public so you will gain valuable real-work experience.

You must have completed the Level 2 qualification in hairdressing to enable you to build on your current skills.

This course covers:-

- Colouring, including colour correction
- Client consultation
- Cutting and retail sales
- Styling and dressing hair, including long hair work
- Health and safety

At this level you will coordinate work of other students, who are studying at Levels 1 and 2, to ensure a smooth running salon. You will be given opportunities to showcase your work at demonstrations and events.

How will I be taught?

You will be based in our industry-standard training salon, which will be open to the public. This gives you real-work experience and exposure to customers, which is so valuable.

How will I be assessed?

There will be practical assessments and observations throughout the course. Your underpinning knowledge will be tested through examinations and project work.

What qualifications do I need to qualify for this course?

You will need at least four GCSEs at grade A* - C, as well as a relevant Level 2 qualification in hairdressing.

What can I do after this course?

You could launch your own hairdressing business or join a salon as a stylist.

Will I need any special equipment?

You would need to purchase hairdressing kit and uniform.
