City & Guilds Nail Technology Certificate Level 2 (evenings, 24 weeks)

Become a top beautician by applying for our nail technology course. Our classes cover everything you need to know about nail technology, manicures, pedicures and nail art.

What will I learn?

Nail technology is big business, and a great career move if you are creative and keen to work either for yourself or be employed in a salon.

This evening class will train you to be a qualified nail technician.

This course will give you all the basics of caring for the natural nail and enhancement of the natural nail (acrylics).

You will learn about:

- Working in Beauty Related Industries
- Client Care and Communication in Beauty Related Industries
- Promote Products and Services to Clients in a Salon
- Provide Manicure Treatments
- Provide and Maintain Nail Enhancements (Acrylic Nails)

This fast track course is designed for you to get the best possible training in Nail Enhancement - Acrylic Nails. You will learn how to enhance the natural nail, extend and refill using Acrylic powders

How will I be taught?

You will be taught in our fully equipped beauty/nail classrooms using professional nail care products.

The practical units are combined together with the theory such as Anatomy and Physiology. The treatments are practiced on each other in the beauty/nail classrooms ready for assessments.

How will I be assessed?

Assessment will take place throughout the course from attendance, punctuality, grooming, attitude and effort but to pass the qualification, you will also need to pass the following competently -

Tests
Practical Assessments

You will be required to bring a friend or family to complete your last assessment on.

What qualifications do I need to qualify for this course?

You may be a mature student looking for a change of direction and want to study in the evening so you can juggle your current job with this new training.

Ideally, you should have GCSEs at grade E - D or above or equivalent such as a Level 1 in Beauty or Hairdressing.

A good standard of spoken English is essential.

What can I do after this course?

This Level 2 Certificate in Nail Technology will enable you to work professionally as a nail technician.

You can also join us in the following courses - Level 2 Certificate in Beauty Therapy, Level 2 Award in Threading, Level 2 Diploma in Reflexology, Level 2 Diploma in Complementary Therapies.

Will I need any special equipment?

You will need to purchase an Acrylic Kit. A kit list will be given to you when you enrol.
